ON PAID TRAFFIC!

## The Internet - The Most Inexpensive Business In The World

---

Ever thought about starting a business only to abandon the idea because of lack of finances? Well, your penny-saving days have come to an end thanks to the Internet's way of getting customers!

Yes, you don't need to invest your life savings in Google AdWords or pay through your nose for private advertising space on high traffic blogs.

Of course, I am not implying that all paid traffic is bad. Both free and paid traffic has its place in the grand scheme of things, but it is always better to start off with free traffic and monetize it FIRST.

The key is for anyone who is just starting out to 'plant their seeds' all over the Internet's soil. You can pick and choose which of your 'plants' grow faster and bear fruit and spend more time nurturing it.

## 1. Viral Marketing Fever

When you have the necessary tools to drive traffic to your website, your profits will be unstoppable!

Here are a few key components you will need to accomplish this feat:

- Advertisements placed in strategic locations (e.g. at the back of viral E-books)
- E-products with resell rights (any form that allows the product to be easily passed to another – master resell rights, unrestricted PLR rights, rebranding rights or giveaway rights)
- A viral software to refer your friends (e.g. Viral Friend Generator)

## 2. Firesale Contributions

What better way to get highly targeted traffic other than being a contributor for a fire sale!

If you don't know what a fire sale is, it is a special type of sale with three important characteristics:

- Time limited (only last for a couple of days)
- Rock bottom pricing (but full of value)
- And it all comes with a theme

So what does that got to do with getting paid leads?

The nature of Fire Sales requires the merchant to sell tons of valuable products for a rock bottom price. Therefore, they would want to provide as much value for the prospects as possible in order to guarantee a sale.

In order to maximize the value, the merchant either:

- Sources for products on his own

- Or he can do it the easy way by asking contributors to add their own products to the fire sale!

If you know about a fire sale going on, what you can do is to ASK the merchant if you can add your own product as a bonus. Normally, they will allow the buyers to download YOUR product by directing them to YOUR landing page!

## **NO HARD SELLING REQUIRED!**

One of the best things about being a contributor for fire sales is the fact that you do not need to exert additional effort in collecting paid leads.

Firstly, because people are already pre-sold on the idea that your product is of value and they will gladly opt-in to download your product.

## **3. Blog Barrage**

How does one maximize from a high traffic blog when that blog doesn't belong to you or when your own blog has little traffic to begin with? How does one cope when he is new to Internet marketing?

Well, one of the fastest ways to get started out is to search for blogs that are constantly looking for content from contributors like the blog on the previous page.

## **CONTRIBUTE RELEVANT CONTENT**

Talk about topics that are relevant to their blog as well as your own. This is a good way to capture the reader's attention.

### **You will reap the following benefits:**

- You get to tap into their traffic and drive traffic to your website
- You get to build your credibility online because you get to leverage on their 'authority'
- The blog post remains there for a certain period of time ensuring that you will get maximum exposure
